

Scholarship Hunt

Scholarship Hunt is a smart and secure web platform designed to help students find verified scholarships, universities, and study abroad opportunities in one place. The system aims to reduce study abroad scams by providing trusted information, scholarship verification, and AI-based scam detection features.

The platform includes separate modules for students, agencies, and administrators. Students can search and apply for scholarships, manage profiles, upload documents, and track applications. Agencies can post and manage scholarship opportunities, while admins monitor activities, verify information, and manage platform security.

With features like advanced search, real-time notifications, document management, and fraud detection, Scholarship Hunt creates a safer, more transparent, and user-friendly environment for students pursuing international education opportunities.

♦ **Landing Page**

Introduction to the platform, featured scholarships, search bar, success stories, and quick navigation.

♦ **About Us**

Information about the mission, vision, team, and goals of Scholarship Hunt.

♦ **Scholarship Search Page**
